CALL THE DENTAL LAW COMPANY FREEPHONE NUMBER NOW 0800 0853 823

If you have experienced problems with the work that a dentist has done for you, call the Dental Law Company now for a COMPLETELY FREE assessment.

We have a team of legally qualified dentists with many years of experience who are waiting to offer you free advice about the quality of dental treatment that you have received.

If we believe that you have been the victim of negligent dental treatment we will offer you a full assessment of your claim and a "no win, no fee" package that will ensure that you receive compensation for the damage that has been done, at no cost to you. Over the years our experts have enabled many people to recover large sums of money following dental treatment that has gone wrong. We can assist when there have been problems with routine dentistry like fillings or gum disease treatment, or with more complex treatment like root treatment, crowns, bridges or cosmetic work.

We recently recovered £35,000 for a patient whose NHS dentist had failed to diagnose or treat gum disease that eventually resulted in the loss of four teeth.

We recovered £18,500 for another patient who was unhappy with the appearance of twenty veneers placed by a Harley Street dentist. Whether you have had problems with NHS or private dentistry our team of experts is only a phone call away.

WHAT WE WILL DO AT NO COST TO YOU

Step One

We will listen to, and assess, the problem that you have had with your dental treatment or your dentist.

Step Two

If we believe that you have a potential claim that is worth pursuing we will tell you and will ask you to allow us to obtain copies of your dental records. We will only contact your dentist if you give us your permission to do so.

Step Three

When we have received your records and reassessed the case we may ask you if we may have your mouth examined by one of our panel of dental experts.

Step Four

If we believe that you have a case for compensation we will then refer you to one of our specialist solicitors who will take on your case on a no-win, no-fee basis. Our specialist solicitors are experienced in acting for patients against dentists and will act efficiently and effectively to ensure that you receive the financial compensation to which you are entitled.
